

W8VB2 Metal to Metal Screwdriver/Nutrunner, VSR

Features:

- **Equipped with a powerful, yet quiet 6.6 Amp motor** with 750 Watts of input power for heavy duty use
- **Quiet motor-** producing a noise level of only 76dB
- **Optimal balance of high torque (215.1 in/lbs) and low speed (1,700 RPM)** to master repetitive metal to metal fastening applications
- **Tool body and handle covered in a soft, yet durable elastomer compound**, which provides a slip resistant and comfortable grip
- **Handle angled outward** in order to ergonomically conform to the way a hand grips the tool during repetitive use
- **Ergonomic design features the shortest grip area** in its class for added comfort and control
- **A belt-hook** is incorporated onto the top of the body for convenience
- **Large 2-finger trigger** is designed with round edges for a better feel during operation
- **Trigger can be locked-on** for continuous use, reducing user fatigue
- **Located for convenience above the trigger is the forward/reverse switch**
- **The gear case and inner cover are constructed out of aluminum** to add durability and increase tool life
- **An elastomer cover** keeps the gear case cool to the touch during extreme use and protects the work piece from being scratched or damaged
- **Equipped with a simple "turn of the nose cone" depth adjusting feature** and detachable nose piece for easy depth adjustment and bit replacements
- **The 24.6ft power cord** is unusually long to allow movement around a room without the hassle of relocating to different power outlets
- **3.3 lbs, lightweight** for ease of use and maneuverability
- Download the [W8VB2 Tool Card](#)

Includes:

- 5/16" Magnetic Hex Socket (985322)
- Sub-Stopper (B) for 5/16" Hex (317671)

Optional:

- Plastic Case (310904)

Specifications

Amps	6.6
No-Load Speed	1,700 RPM
Max Torque	215.1 in-lbs
Capacity-Drywall:	#10
Capacity-Wood:	#12

Capacity-Self Tapping:	5/16"
Power Input	750 Watts
No-Load Noise Level	76dB
Cord Length	24.6 ft
Length	12-7/8"
Weight	3.3 lbs
