

D10VH2 3/8" 7-Amp Drill, EVS, Reversible

Features:

- **Powerful 7-Amp motor**, forcible power combines high speed with optimal torque
- **Max torque of 133.7 in-lbs** good for high speed applications
- **All metal 3/8" keyless chuck** for greater durability and better bit holding ability
- **Form fit palm grip with rubber over-molded handle** designed to comfortably fit in hand for improved control with minimal vibration
- **Variable speed trigger with dial** for precise operation
- **Trigger lock-on** is convenient for reducing fatigue during continuous use operation
- **Easy to access forward/reverse button** makes backing out a bit quick and easy, and can be operated with one hand
- **Lightweight at 3.3 lbs** for greater ease of use and maneuverability
- **Compact tool body** designed to fit in tight spaces
- **Belt hook** for convenient storage between job locations
- **Covered by Hitachi's Professional 5-Year warranty**
