Features:

- [Watch the video demo for this circular saw](#)
- **Hefty motor (1,710 Watt Output)** produces a no-load speed of 5,800 RPM for greater cutting efficiency through tough materials
- **Internal Double Insulation (IDI) technology** enables the magnesium housing to be intertwined with an injection molded inner nylon core to combine the durability of an all metal body tool with the double insulation advantages of a tool with plastic housing for added user safety
- **Tool bearing sits in a die-cast magnesium housing**, instead of plastic, to improve tool reliability and greatly extend tool life
- **Electric brake** stops blade rotation within seconds preventing unintended cuts
- **Levers are made from die-cast aluminum alloy** for durability
- **Depth and bevel setting levers** are well-placed and move smoothly during adjustments
- **Bevel capacity ranges from 0-55 degrees** with a positive stop at 45 degrees
- **Extra cut capacity to 55 degrees** is ideal for framing and cutting compound miter angles for more flexibility
- **Heavy-duty aluminum base** offers easy to read front and side scales for accurate measurements
- **Easily accessible carbon brush** allows for quick and easy brush changes- user friendly maintenance
- **Lightweight at only 10.5 lbs**, this saw is easy to maneuver and transport
- **Soft grip main and sub handles are ergonomically designed** to increase grip and improve comfort
- **AC/DC switch** is operable on any power supply including a generator for optimal convenience
