Features:

- **Powerful 15 Amp motor** delivers top of class cutting speed to rout through hardwoods with ease
- **Soft start motor** produces 3-1/4 peak HP, while reducing torque during start up
- **Equipped with an electronic variable speed dial**, the M12V2 produces 8,000- 22,000 RPMs for a wider range of cutting applications and a wider range of materials
- **Variable speed dial** is conveniently located on the handle so the user can finely adjust the rotation speed without removing a hand or eyes from the work piece
- **Unique quick & fine adjustment knob** combines both functionalities into the same mechanism to quickly and accurately dial plunge depths
- **Easily converts** to table use
- **Bits can be easily changed from a table mounting** as the collet chuck is designed to protrude 6mm from the upper side of the table
- **Equipped with an improved collet chuck** that secures the bit into the armature shaft for maximum hold
- **Dust guide** diverts dust and debris away from the work piece and user
- **Weights 13.9 lbs** making it safe and stable for freehand routing
- **Ergonomic design** for enhanced comfort and control
- **Elastomer covers the handles** to reduce transfer of vibration and prevent slippage
