

CE16SA 16-Gauge 3.5 Amp Shear

Includes:

- 3mm Hex Bar Wrench (943277)
- Thickness Gauge (949128)

Features:

- **High power-to-weight ratio (230W output and only 3.8 lbs)** for more work and less fatigue
- **Small grip circumference (only 7-1/4" around the barrel)** for easy handling and control
- **Powerful motor** keeps cutting speed consistent even as the load increases
- **Externally accessible carbon brushes** for quick and easy changes and longer tool life
- **Switch lock-on** for easy and continuous operation
- **Thickness gauge** for use with various materials including steel, stainless steel, aluminum and copper plate, leather, and fiberboard
- **Reversible blades** provide eight cutting edges and require few blade replacements
- Download the [CE16SA Tool Card](#)

Includes:

- 3mm Hex Bar Wrench (943277)
- Thickness Gauge (949128)

Specifications

Amps	3.5
No-Load Speed	4,700 SPM
Min. Cutting Radius	1"
Cut Speed	20.7 ft/min
Mild Steel Capacity	16-Gauge
Stainless Steel Capacity	18-Gauge
Aluminum Plate Capacity	12-Gauge
Length	9.8"
Weight	3.8 lbs
