

DV20VB2 3/4" 8.3-Amp Hammer Drill, 2-Modes, VSR

### Includes:

- Chuck Key (987576)
- Depth Stopper (303709)
- Side Handle (323050)
- Carrying Case (322706)

### Features:

- **One-piece cylindrical housing and aluminum die-cast inner cover and gear cover** make this tool far more durable than competitive models
- **No-load speed of 0-1,000/3,000 RPM and an impact rate of 0-13,000/39,000 BPM** give this tool a best in class drilling speed
- **8.3 Amp motor, 940 Watt motor,** makes quick work of heavy-duty jobs
- **Variable speed and oversized trigger switch with speed control dial** provides greater speed control
- **1/2" industrial grade chuck,** for a variety of bit choices and better bit retention
- **Push button reversible drilling,** allows for quick removal from materials and higher efficiency
- **No-load noise level of only 79dB** makes the DV20VB2 one of the quietest hammer drills on the market
- **Elastomer, non-slip grip,** designed to absorb vibration and comfortably fit in hand for improved control
- **Removable side handle with depth gauge,** improves control and ensures accurate drilling depth for anchoring
- **Weighing only 4.9 lbs and measuring only 13-1/8" long,** the DV20VB2 is one of the most compact and lightweight drills in its class
